

## New Website visualizes Nanobiotechnology

### Show the NanoBio World

**Münster, Oktober 2006. Nanobiotechnology will revolutionise the world of science according to the evaluation of specialists around the world. Meanwhile the access to the subject is not easy for everybody. The new appearance of Nano2Life at the web intends to change that. On the website [www.nano2life.org](http://www.nano2life.org) the network of Europe's leading experts in nanobiotechnology presents this cutting-edge field of research in a clear and descriptive way.**

Concise texts and impressive pictures showcase the world of nanobiotech. Extensive career opportunities all over Europe are offered. Each of the 23 partners presents their key activities. Ongoing events and current news are always available at the welcome page and the columns "paper of the month" and "company of the month" turn the focus on outstanding publications and innovative industry. A comprehensive press area offers background information and pictures for representatives of the press, eventually.

Nano2Life is a network that comprises over 200 leading scientists from 12 countries. Its aim is to merge existing European expertise to make Europe a leader in the field of nanobiotechnology. The 23 highly specialised centres of research work closely together with more than 20 high tech companies to convey their scientific results into practically relevant applications.
